Our Story

From a Passion for Nature to a Purpose-Driven Food Business

Established in 2023, JUSS Ceylon Products (Pvt) Ltd is a Sri Lankan, women-led food enterprise specialising in value-added food products inspired by the island's rich agricultural resources, traditional flavours and culinary heritage.

Founded by Mrs. NM Upamali Kumudinie, Founder and CEO, JUSS combines scientific rigor, a strong interest in culinary development and more than 20 years of professional experience in environmental management. With a MSc in Environmental Science, Upamali brings a science-based perspective to food processing, resource efficiency and environmentally responsible business practices.

JUSS creates value from Sri Lanka's agricultural producers by transforming locally sourced ingredients into a diverse range of products, including dehydrated fruits, spices, teas, coffee, chutneys, jams and traditional snacks. By combining Sri Lankan culinary traditions with modern food-processing techniques, the company develops convenient, quality-focused products that retain the distinctive flavours and character of local ingredients.

ABOUT US

Sustainability is central to the JUSS approach. The company promotes responsible resource utilisation, works to reduce avoidable food waste and adds value to underutilised agricultural materials. Dehydration allows for preservation of fruits during times of oversupply and the Nutmeg chutney is a signature innovative product made of the nutmeg husk which was previously wasted during nutmeg and mace production.

JUSS

Naturally The Best!

LEADING PRINCIPLES

- Product Development and Diversification: Produce a diverse range of value-added Sri Lankan food products and beverages, including dehydrated fruits, spices, tea, coffee, chutneys, jams, and traditional snacks.
